

Phase Technology CS-6R DVT 6.5in 2-Way Dual Voice Coil In-Ceiling Speaker

6.5in 2-Way Dual Voice Coil In-Ceiling Speaker w Micro-Flange Grille

Phase Technology's CS Professional Series offers extended performance and power handling for in-ceiling or in-wall applications. Each model features extra-high sensitivity to assure satisfying volume, even with low-powered distribution systems. The CS-6DVT utilizes dual tweeters for extended high-end dispersion.

These economy speakers feature outstanding audio quality and a micro-flange grille which only has ¼" of exposed flange along the edges.
