

S-Video Cable

This Cable is featured with gold connectors to ensure a perfect connection. High-Density double shield construction for high rejection of EM and RF interference. And the conductors, which are made of High-Purity Oxygen Free Copper (OFC), have the characteristics of high conductivity, low signal loss and degradation, low electric resistance and good signal transmission. A thick nylon sleeve will protect the insulation from moist and dust.

Lengths Available:

- 1m(3ft)
- 2m(6ft)
- 4m(13ft)
- 5m(16ft)
- 7m(23ft)
- 10m(33ft)
- 15m(50ft)

Colors Available:

- Black

Applications:

Primarily used to interconnect video equipment like S-VHS players, DVD players, TV's, audio/video receivers, cable and satellite receivers and any other type of equipment that can use this connection.

Specs:

- S-Video male to S-Video male
- Dual-Coaxial High-Purity Oxygen Free Copper conductor construction
- High-density double shielding for maximum rejection of RFI and EMI.
- 24k gold-plated connectors
- Nylon Sleeve offers extra protection against moisture and dust
- CL2 standard rated
