

TECHNICAL SPECIFICATION

CLR Fiber Optic Basic Termination Kit

Part: CLR-FKIT02E

The Covid CLR-FKIT02E Economical Fiber Termination Kit provides the required tools to terminate fiber. The included high precision wheel cleaver produces quality cleaves without the need for microscope verification. The blade provides up to 36,000 cleaves via an easy blade position selection adjustment. A verification fault locator allows for visible laser light to be used during the termination process. The kit includes carrying bag and strap, precision fiber strippers, VFL, and other hand tools all located in a convenient bag that protects the included tools while allowing ease of access.

FEATURES:

- Tool kit carrying Bag & Strap
- Precision wheel fiber cleaver
- Aramid strand scissors
- Tri-hole fiber strippers
- Visual fault locator, 650nm
- Fiber optic disposal unit
- Black marker
- 50mm ruler

APPLICATIONS:

- Premise/Enterprise Networks
- Backbone, Horizontal and FTTx applications
- Data Center, Enterprise, Broadcast, Industrial
- Defense, Healthcare and Telco/MSO
- Field repair/ replacement
- LAN/WAN connections
