

Electro-Voice UB10DB U-Bracket for 10 inch Subwoofer (Black)

The black Electro-Voice UB-10DB is a U-bracket designed to provide stable and secure mounting of an EVID-S10.1 or LB20-SW400 subwoofer for system designers, installers, and audio engineers configuring systems for background and foreground music in stores, clubs, eateries, schools, and more. It allows suspension or wall-mounting of a compatible subwoofer cabinet in a horizontal down-firing position. Its pre-drilled holes enable easy installation with the included mounting screws.

Features:

- Pre-drilled mounting holes
- Fits EVID-S10.1 2x10" subwoofer
- Fits LB20-SW400 2x10" subwoofer
- Allows suspension in a horizontal down-firing position
- Allows wall-mounting of your subwoofer
- Includes four mounting screws
- Color: Black
