

Electro-Voice EVID40SW Surface-Mount Satellite 200W/Dual 8 Ohm/Mono 4 Ohm Operation Subwoofer (White)

The EVID compact sound speaker system is a very compact, full-range loudspeaker ideal for applications requiring high-quality sound. Its shape flexibility and size make it nearly invisible for use in background/foreground music systems for restaurants, bars, patios, retail, and other applications.

Features:

- High-performance ev-engineered 8" transducer with high-efficiency multi-mode audio crossover network.
- Compact, high-density wood enclosure with port for extended bass response, secure snap-on speaker grille, and quick-mount slide-on bracket system.
- Easy-access signal connections with phoenix-style connectors for quick wiring, user-friendly mode selector for stereo or mono operation, and easy-tap selector dial (supports 4/8 ohm inputs or up to 100 w / 70/100 v audio connections).
- Color: White
