

Electro-Voice 635N/DB N/DYM Dynamic Omnidirectional Interview Microphone (Black)/80Hz to 13kHz

The 635N/D-B has the same "hammer-like" toughness and classic performance and reputation as the 635A with the added benefit of increased output from its neodymium magnet structure.

Features

- Omnidirectional dynamic
- Neodymium element for higher output
- Acoustalloy™ diaphragm material for very smooth response over a wide frequency range
- Integral windscreen and blast filter
- Black semi-gloss finish
