

Electro-Voice PC12/XLR 12 inch XLR Base Dual Condenser Multi-Pattern Gooseneck Microphone (Frequency Response 50Hz to 20kHz)

This listing is for PC-12/XLR Microphone only. Use description below as a general reference.

The PolarChoice PC-12/XLR and PolarChoice PC-18/XLR are highly-shielded from RFI/GSM, multi-pattern, miniature gooseneck podium microphones designed for sound reinforcement systems where sound quality and gain-before-feedback is of major importance. The multi-pattern versatility of the PolarChoice microphone makes it a true "problem solver". With three (3) directional and one (1) non-directional polar pattern available, the PolarChoice microphone is ideal for virtually any installation. Polar patterns can be easily changed, using a small flat bladed screwdriver with the front mounted rotary control. The control switch has the following settings

Features:

- Dual capsule design with four (4) polar patterns: Omnidirectional, Cardioid, Supercardioid, and Hypercardioid.
- RF Shield provides superior RFI/GSM shielding.
- Switchable high-pass filter.
- Consistent on-axis response.
- Available in 12-inch versions.
- Non-reflecting black finish.
- 3-pin male XLR-type output connector.
- Phantom powered back-Electret condenser.
- Packaged with a 2-piece shock mount.
