

PureLink VIP-CAM-100 H.264 IP Camera with 3G-SDI Output

PureLink understands that the implementation of traditional A/V has added complexity when merged with IT. PureStream VIP solutions address these issues by combining reliable hardware with simplified setup, discovery, and operation.

The VIP-CAM-100 is a 1080p camera with 20x optical zoom for capturing high quality HD video. With support for HD-SDI and IP Streaming, the VIP-CAM-100 is ideal for broadcasting high definition video signals in conferencing, live broadcast, worship venues, security/surveillance applications, and more.

Features:

- 2.14 Megapixel 1/2.8-inch Sensor
- H.264 and 3G-SDI outputs
- Supports resolutions up to Full HD/1080p
- High quality 20X Optical Zoom 4.7~94mm (F1.6~3.5) with 12x Digital
- Advanced variable and smooth PTZ (Pan-Tilt-Zoom) function for higher precision and reliability
- IP (H.265, H.264) and 3G/HD-SDI dual stream outputs
- IR remote control interface
- VISCA, PELCO, RS232, and HTTP control
- Table, ceiling, or wall mountable
- Easy configuration via OSD menu
- On-board SD card slot for local recording/storage
- Digital noise reduction
- ONVIF, RTSP, RTMP, HTTP, TCP, UDP protocol support
