

Altinex DA1907LX 1x2 VGA Distribution Amplifier

The DA1907LX (Ditto-Amp) is a high resolution, 1-in / 2-out Distribution Amplifier designed to allow the connection of a single VGA-UXGA source to up to two scan-rate compatible displays. Very high-resolution video signals are able to pass without degradation in the image quality.

The DA1907LX offers a female 15pin HD input featuring native Plug & Play compatibility with Output 1. An internal Plug & Play memory option may be selected at purchase for applications where using the Plug & Play feature of the remote device is not desired.

Compact and easy to use, the DA1907LX is perfect for audiovisual installations where a single computer needs to be connected to a projector (or presentation monitor) and a local monitor simultaneously. The DA1907LX has female 15pin HD (VGA-type) connectors on all input and output connectors so it can be used with readily available standard VGA type cables. If desired, the input and/or output of the DA1907LX can be easily adapted to 5 BNC connectors through Altinex adapter cables.

The DA1907LX is compatible with RGSB , RGBS and RGBHV signal types, and using the proper cable type the DA1907LX can be used with MAC, SUN, or SGI platform computers

- Two Buffered Outputs
- Ideal for use with LCD/Plasma/DLP Projectors
- VESA DDC (EDID) pass through output1
- Compact Design
- Solid Metal Enclosure
- PNP internal/By-pass
- External Power Supply (9V 280mA) Included
- Includes: (1) power adapter, 3 ft/1m male-to-male VGA cable
