

# ZeeVee ZvPro810i-NA 1-Ch HD Video QAM Modulator over COAX 1080p

This listing is for ZvPro810i-NA Modulator only. Use description below as a general reference.

## 1 Channel HD Video QAM Modulator over COAX 1080p

ZvPro810i delivers uncompromising digital HD video distribution over your existing coax cabling from HDMI sources, as well as providing simultaneous IP streaming with no performance compromise. This one channel QAM, MPEG2, Encoder/Modulator unit allows you to easily distribute content up to 1080p resolution to an unlimited number of displays, using the TV's built in QAM tuner, eliminating the need for cumbersome, expensive set-top-boxes or media players at each display. Its built in IP streaming functions can deliver stunning video to any media player or other IP device - perfect for digital signage. ZvPro units can be managed either locally through the color LCD screen on the front panel or remotely using the Maestro web based software. All ZeeVee units support Dolby Digital audio encoding. With Emergency Alert System capabilities, keep your guests, residents and patrons safe. Included Closed Captioning makes your installation ADA compliant. ZvPro allows you to control power output from 25 to 45dBmV QAM output levels in 1dBmV steps. ZvPro delivers resolutions from 480i to 1080i/p. If you need a component or VGA connection, check out the ZvPro610i, ZvPro620i.
