

ZeeVee ZvPro810i-EU 1-Ch HD Video DVB-T/C Modulator 1080p

This listing is for ZvPro810i-EU Modulator only. Use description below as a general reference.

1 Channel HD Video DVB-T/C Modulator 1080p

ZvPro810i delivers digital HD video distribution over your existing RF network from your unencrypted HDMI sources as well as providing simultaneous streaming over an IP network with zero compromise in performance. This two channel DVB-T/C, MPEG2, Encoder/Modulator unit allows you to easily distribute content up to 1080p resolution to an unlimited number of displays, using the TV's built in DVB-T/C tuner, eliminating the need for cumbersome, expensive set-top-boxes or media players at each display. Its built in IP streaming functions can deliver stunning video to any media player or other IP device - perfect for digital signage. ZvPro units can be managed through the color LCD screen on the front panel or remotely using the Maestro web based management and control system. All ZeeVee units support digital audio encoding. ZvPro allows you to control power output from 25 to 45dBmV DVB-T/C output levels in 1dBmV steps. If you need a component or VGA connection, check out the ZvPro610i or ZvPro620i.

Features:
