

Osprey 95-00515 Quad 12G SDI I/O Genlock Capture Card (1245)

Osprey Raptor 1245 features four 12G-SDI connections. Ports are bi-directional and work with SD, HD, Ultra HD and 4K DCI frame sizes. All 12xx Raptor cards can capture and playback up to 60fps. Each SDI Input supports 16 Audio Channels (8 Stereo Channels) for a total of up to 128 combined Audio Channels between all inputs. A Genlock Input allows for frame synchronization if the card is used in Output Mode
